1 of 1 review helpful The Best I've Read By McDohl Rowe's introduction to the philosophy of religion is the best I've read. The reason it is the best is that the others I have read are written by religious thinkers who ultimately seem unable to treat religion in a no-holds-barred critical light. Rowe takes off the kid gloves and actually subjects religion to the tools of philosophical evaluation in a way that other texts have not. What is the relationship between faith and reason? Find out in PHILOSOPHY OF RELIGION: AN INTRODUCTION. Because it's written to be easily understood, no matter your background, this philosophy of religion textbook introduces you to the debate in a way you can understand. Whether it's the philosophical proofs for God's existence or using reason to evaluate faith claims, the major points in the philosophy of religion are all covered in this excellent textbook. And with its 1. The Idea of God 2. The Cosmological Argument 3. The Ontological Argument 4. The Design Argument Old and New 5. Religious and Mystical Experience 6. Faith and Reason 7. The Problem of Evil 8. Miracles and the Modern World View 9. Life After Death
