This original work focuses on the rational principles of Indian philosophical theory rather than the mysticism more usually associated with it. Ganeri explores the philosophical projects of a number of major Indian philosophers and looks into the methods of rational inquiry deployed within these projects. In so doing he illuminates a network of mutual reference, criticism, influence, and response in which reason is used to call itself into question. This fresh perspective is a brilliant contribution to the study of some of the basic questions of classical Indian Philosophy and at the same time quite a convincing presentation of new philosophical paradigms. What is striking in Ganeri's work is the commendable combination of
