0 of 0 review helpful Doesn't Compare By Benjamin V Kashmir Shaivism blew me away This is a very different viewpoint If you are looking for an in depth analysis of Hindu Realism this would be a good book I was looking for more Shaivism so I suppose I had unrealistic expectations about this book Just changed it from 2 stars to three I found the proofs severely lacking and the arguments unconvincing So to restate as This scarce antiquarian book is a facsimile reprint of the original Due to its age it may contain imperfections such as marks notations marginalia and flawed pages Because we believe this work is culturally important we have made it available as part of our commitment for protecting preserving and promoting the world's literature in affordable high quality modern editions that are true to the original work
