From Brand: Cornell University Press : Medieval Political Philosophy: A Sourcebook (Agora Editions) summa theologiae besides the countless partial editions especially of the treatise on god the treatise on man and the treatise on law see the following complete ancient history is the aggregate of past events from the beginning of recorded human history and extending as far as the early middle ages or the postclassical era Medieval Political Philosophy: A Sourcebook (Agora Editions):

0 of 0 review helpful Got it for class not selling it back By flormcubed The selection of political texts is vast and varies from other political philosophy books Each new text is provided with a brief history of the author and what lead to the text being written I do have to praise the introduction of this book I find that it is one that should not be skipped over It provides a brief but detailed background to the text Medieval Political Philosophy A Sourcebook edited by Ralph Lerner and Muhsin Mahdi has been a classroom favorite since its publication in 1963 When it first appeared it was the only anthology of medieval political philosophy to contain major texts from all three Western monotheistic traditions Christianity Judaism and Islam and that claim remains true today This new edition of this classic text of political philosophy revised and enlarged by Jos This updated collection is as timely now as it was back then few students of political theory are sufficiently conversant with the rich medieval tradition of reflection on such problems as reason and revelation or natural and divine law
